Although established for over 35 years Dawber Photography has remained at the forefront of modern techniques, trends and fashions. Our portrait sessions are aimed at providing a pleasurable experience shot in a relaxed style. Although we are no longer studio based we can still offer family portraits shot in your own home or garden or even out on location.

Canvas wraps are the most popular choice, your chosen image/s are printed onto the highest quality 100% natural art canvas material. They are then coated with a protective varnish for proven long lasting UV protection and then wrapped around and hand stretched onto 1.5" thick oak gallery stretcher bars.

However, if you prefer framed portraits we can provide you with an unmounted top quality print to any size of your choice for you to have framed yourself in your own choice of frames.

We can also provide you with high resolution digital images, retouched and with a printing licence for you to have your own prints or canvases produced.

Your session's images will be uploaded to our secure website for you to view and choose at your leisure.

A session fee of £50 per hour or part hour is charged for all portraits.
