Although established for over 35 years Dawber Photography has remained at the forefront of modern techniques, trends and fashions. Our portrait sessions are aimed at providing a pleasurable experience shot in a relaxed style in our modern garden studio location. Many of the images taken during your session will be informal and may include both lively and floor level posing. You have a choice of black and white or colour.

All our portraits are supplied to hang as a piece of wall art decor.

Single Images - placed within a cut-out double overlay surround in harmonising colours, sealed behind clear glass and professionally **framed** in your choice of frame. Or, printed onto traditional **canvas** or modern **box frames**, both giving a 3D effect on your wall. Or, your picture sandwiched between two pieces of top quality acrylic and finished with four corner polished silver studs.

Multi Image Composites – have a collection of your favourite images arranged together within a cut-out double overlay surround, sealed behind clear glass and professionally **framed** in your choice of frame. Or, have a collection of different sized **box frames** of your favourite images to go on your wall. All of these options are on display in our studio.

A session fee of £40 is charged for all weekday studio portraits.

A premium session fee of £65 is charged for evenings, weekends or home portraits, please note home portrait sessions are subject to a mileage charge of 50p per mile.
